## About Us

At CannaGreen Packaging, our mission is to provide the cannabis industry with fully integrated, eco-conscious, and reliable packaging solutions. CannaGreen's packaging designs are versatile and can be used for multiple cannabis formats. By choosing to participate in the stocking program, customers can ensure in-stock, ready-to-ship packaging which can be customized to match the brand.

# OUR UNIQUE APPROACH

### Just-In-Time Inventory

CannaGreen's custom Stocking Program ensures that your packaging is available to ship within one business day. Products are delivered domestically without the supply chain disruptions that may occur with overseas transportation. With the stocking program, customers also benefit from custom packaging colours and quantities.

### Innovative Packaging

We take pride in creating innovative packaging solutions that have multiple product uses. Our molds are carefully crafted and stored at our Western Canada facility, allowing us to achieve the highest level of quality control over our products. Our team of experts is committed to delivering cutting-edge packaging designs that meet the evolving needs of the cannabis industry.

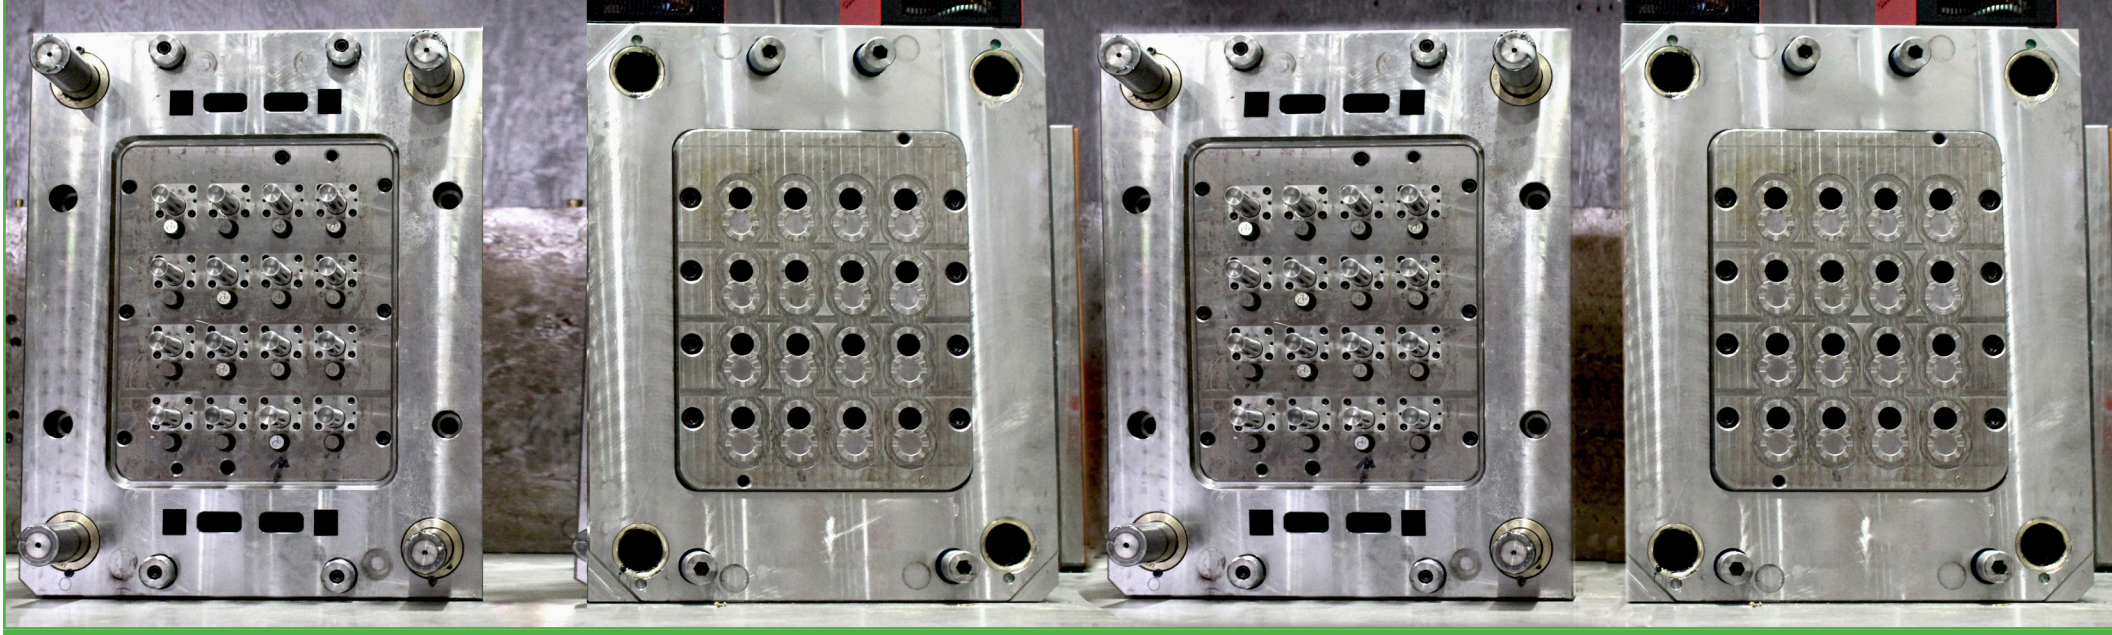

### Sustainability Practices

We understand that being sustainable is not just about creating eco-friendly products but also about incorporating sustainable practices throughout our entire supply chain. We strive to use sustainable materials and manufacturing processes that minimize waste and energy usage.

# Manufacturing Facility

CannaGreen Packaging is proud to be a part of a successful family-owned and operated manufacturing facility in Western Canada. The facility has been supplying packaging products for over 35 years, with current ownership taking over in 1995.

## Design And In-House Tooling

Work with our team to create your custom packaging to ensure your brand stands out from the rest. CannaGreen is one of the few manufacturers that tools their own molds, allowing for continuous product development and improvement. All CannaGreen's plastic molds are designed, manufactured, and stored in-house.

## Certified And Shipped

CannaGreen cannabis packaging meets Health Canada Standards and has child resistant certification. All required QA documents are available and applicable certifications are provided with every shipment.

## Produced In Alberta

Our facility operates for 24-hours a day, enabling CannaGreen to deliver and maintain packaging inventory levels for customers across North America. Our automated processes deliver high quality products and ensure we can quickly respond to customers needs.

# ECO CONSCIOUS

## Responsible Manufacturing

### Environmental Safety

CannaGreen Packaging is proud of its Canadian manufacturing roots and is committed to implementing Responsible Manufacturing Practices (RMP). This involves an ongoing evaluation and improvement of the manufacturing process to achieve the highest levels of efficiency and environmental safety possible.

### Fully Recyclable

We are dedicated to reducing waste and minimizing environmental impact. Our packaging is made with 30% recycled materials and is 100% recyclable, ensuring that it can be reused and re-purposed. We work closely with our partners to develop packaging recycling programs, while finding new and innovative ways to reduce waste within the supply chain.

### Biodegradable Packaging

We are committed to reducing environmental impact in the industry by offering sustainable packaging solutions. Our range of eco-conscious options includes compostable degradable plastics and food-safe recycled materials. We work closely with clients to design packaging solutions that align with their brand values and sustainability goals.

# Stocking Program

Select your packaging and set the minimum and maximum inventory quantity for each item. We warehouse 3 months of your expected packaging demand.

1

2

We store your dedicated packaging in our Western Canadian warehouse, ready to be shipped anytime.

Order from your dedicated inventory monthly or as required. You only pay for the packaging inventory you pull. Orders are shipped within one business day.

3

4

CannaGreen manages your inventory levels and manufactures more packaging to ensure minimum inventory levels are maintained.

# Benefits Of Stocking Program

- **Enjoy cost savings by adjusting your inventory quantities over time to match your business needs.**
- **Easy access to monthly inventory reports**
- **Applicable QA documents are shipped with every order.**
- **Enjoy secured shipping costs with zero unexpected import duties, taxes or freight surcharges**
- **Multi-use master cases are available to package your retail units.**

# Bulk Packaging

## Master Cases

Our master cases are made of 100% recyclable material and provide reliable and customizable protection for transporting final packaged cannabis products to retailers.

## Bin Liners

CannaGreen Packaging's recyclable bin liners are leak proof and designed to keep bulk product safely stored while undergoing various production processes.

## Bulk & Retention Bags

CannaGreen Packaging's Bulk Bags are made for easy and reliable transportation of large quantities of cannabis. The high-quality, recyclable material locks in moisture and preserves the integrity of your products, ensuring they arrive in optimal condition.
